

Essex
BREEDING
CENTRE

Delivering happy, healthy small animals to your store

Call 01621 740510 to find out how we care for the pets of the future

A WARM WELCOME TO EBC

Essex Breeding Centre is an established business owned by Phil and Gail Gibbs since June 1998. We breed and deliver a variety of small animals throughout the UK.

During our time here we have expanded the business and we now breed on our site Syrian, Russian, Chinese and Roborovskii hamsters, fancy rats, gerbil guinea pigs and our latest addition, fancy mice. As a licensed breeder, we are inspected by the local authority and issued with a pet shop licence.

A CARING ENVIRONMENT

Our animal care, husbandry and breeding methods are approved by the Royal Veterinary College (London), who make regular visits, reporting on all aspects of animal health and welfare. We work hard to ensure our animals have the best care we can provide for them.

We are active members of the Pet Industry Federation (formally the Pet Care Trust), who promote responsible pet ownership.

We employ and train animal care personnel who ensure our standards of animal care and husbandry are always kept at the highest levels.

*Members of our
animal care team*

HEALTH & WELLBEING IN ANIMALS

We constantly monitor the health and wellbeing of all our animal colonies through the:

- ◆ Watchful eyes and caring hands of our entire animal care staff.
- ◆ Regular meetings and discussions with all the Animal Care Unit supervisors.
- ◆ Quarterly visits and advice from our experienced veterinary surgeon.

Please feel free to discuss any concerns or queries you may have about our animals. If a veterinary matter arises our vet will be happy to discuss any issues with your vet.

RESPONSIBLE & CAREFUL

We have a duty to set and monitor new trends and legislation in animal care to ensure the best practices in animal care and breeding are maintained.

Our animals are delivered to you correctly boxed with enough wet and dry food for their journey. Our team of dedicated drivers cover the country and deliver your order personally to you. We are in your area regularly throughout the year in vans that are equipped for transporting livestock.

STANDARDS TO RELY ON

All our young animals are properly weaned from their mothers and sent out to our customers at the correct age and weight. We supply a great variety of colours and coat types and we are continuing to develop interesting variations.

Our friendly office staff work closely with our animal care staff and our delivery drivers to ensure you receive a top class service.

They are always ready to take your call or email and to help and advise you with your query.

ESSEX BREEDING CENTRE FOR HEALTHY, HAPPY PETS

We have teamed up with a rabbit breeder who produces top quality rabbits for our customers.

We pride ourselves on the quality of our animals and the service we provide to you.

*Our ethos is to breed healthy,
happy animals that will
become healthy, happy pets.*
